

TouchPoint™

Elevate the Homebuilder and Vendor Experience

Streamline jobs, payments, orders, and schedules between homebuilders and their contractors, trades, and suppliers.

Real-Time Sharing & Communication with Trades

Save Time & Reduce Errors

Avoid complications and back-and-forth. Orders, schedules, documents, and payments are automatically shared with vendors through a single access-point.

Works With NEWSTAR

TouchPoint leverages the homebuilding project data already in NEWSTAR, providing an easy experience for builders and vendors.

Encourages High Vendor Adoption

Vendors can view complete required information from any Constellation builder they work with from a single login.

Effortless Administration

After you invite vendors with a single click, vendors can manage their own credentials while receiving training and support directly from Constellation - leaving no burden to you.

Unlock Efficiency for Trades & Vendors

All your builder information in a single portal

Manage all jobs and construction schedules for any Constellation builder.

Submit, view, and track all invoices while reconciling payments against invoices and purchase orders.

Access real-time info on POs, tasks, service orders, and documents.

Access reliable, professional technical support from Constellation HomeBuilder Systems.

End-to-End Trade Collaboration

» Service Orders

- View and track service requests and orders through to completion.

» Scheduling & Project Management

- Preview real-time task information.
- Manage schedules and tasks in list or calendar view.
- View and filter by project, lot, date, and more.

» Purchasing

- View POs, invoices, and change order details.
- Track payments and reconcile invoices.
- Submit, manage, and view invoices.

» Documents

- Access a centralized library of project, lot, and model-specific information.
- Includes location maps, purchase orders, and more.

» Bid Management

- Integration with BidManager.
- Efficiently collaborate on projects and bid packages.

» Builder-Vendor Communication

- Real-time communication of up-to-date project and task information.

» Administrative Controls

- Manage and update company information.
- Admins can create new users and assign permissions.
- Users can self-serve password resets.

» Multibuilder

- Vendors can view and filter information seamlessly all Constellation homebuilders.

The screenshot displays the TouchPoint software interface. On the left, there's a sidebar with filters for 'Operating Unit', 'Project', and 'Phase'. The main area shows a calendar for July 2024 with tasks like 'Start UP Mobilization (C)', 'Steel Rebar \$ (C)', 'Backfill Plumbing (C)', 'Finishing (C)', 'Flooring - Carpet Install \$ (C)', and 'Excavation (C)' scheduled across the days. On the right, there's a table with columns for 'Operating Unit', 'Payment Amount', and 'Payment Date', showing various payment entries.
